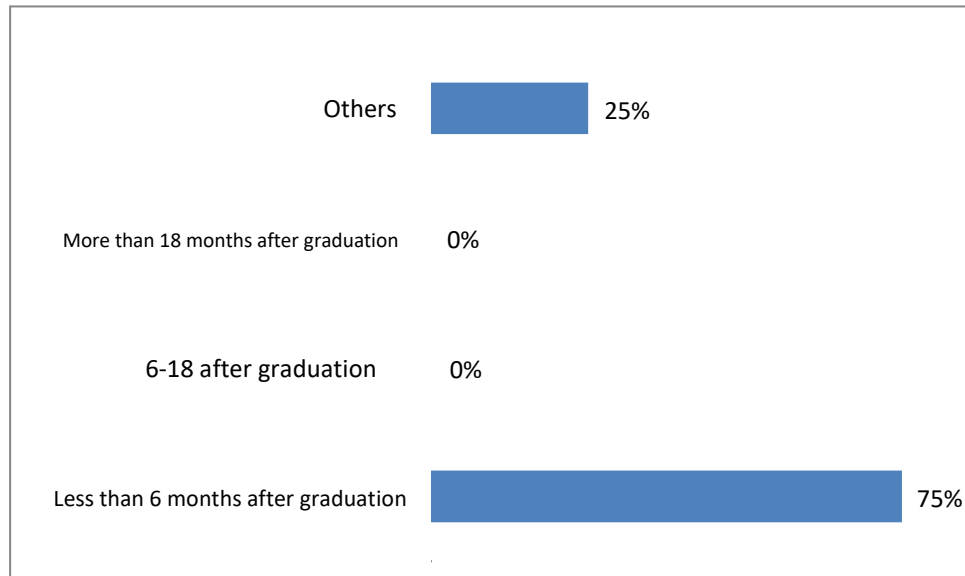

Figure 181. Waiting Time to Get a Job

Based on the figure above, 75% of alumni get job less than 6 months, 0% with a period of 6-18 months, 0% more than 18 months, 25% others after graduation.

b. What field of work/entrepreneurship are you currently engaged in?

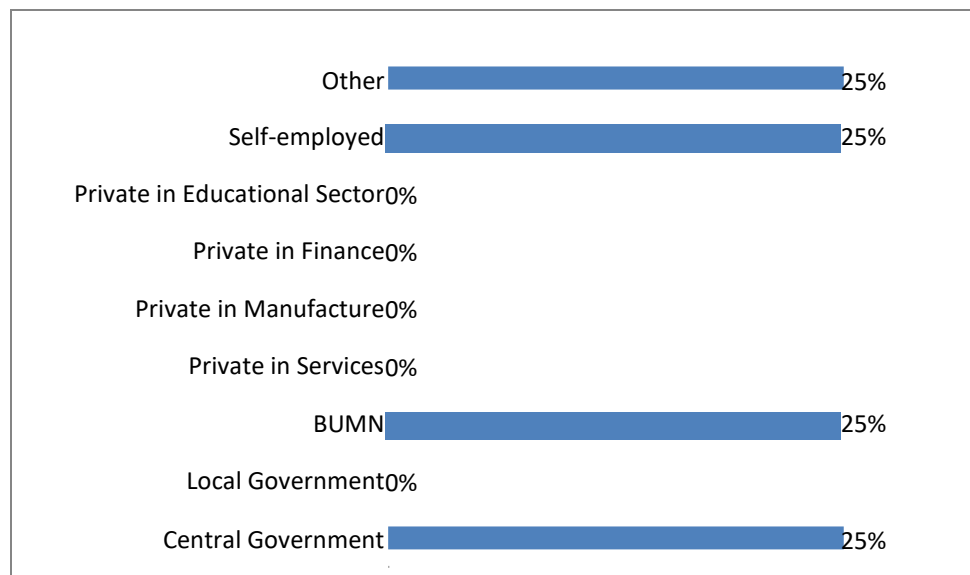

Figure 182. Alumni Work Sector

Based on the figure above, as much as 25% of alumni work as entrepreneurs, 0% private in education, 0% private in finance, 0% private in manufacturing sector, 0%

private sector in services sector, 25% in BUMN, 4% in government regional, 25% in the central government, and another 25%.

c. What was your process for getting this job?

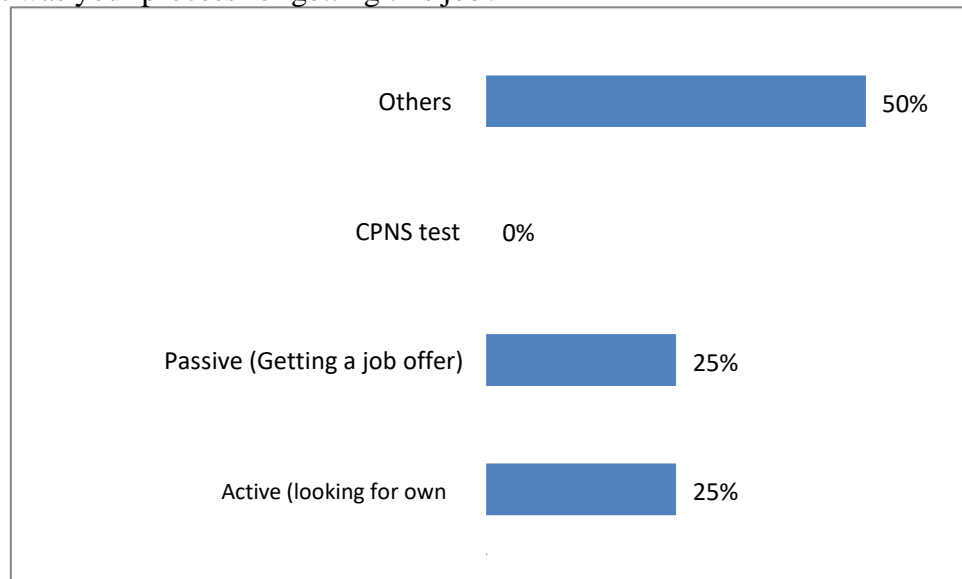

Figure 183. Finding Job Process

Based on the figure above, 25% of alumni are actively looking for work, 25% looking for work passively, 0% through the CPNS test, and others as much as 50%.

d. What is your average monthly income at your last/present job?

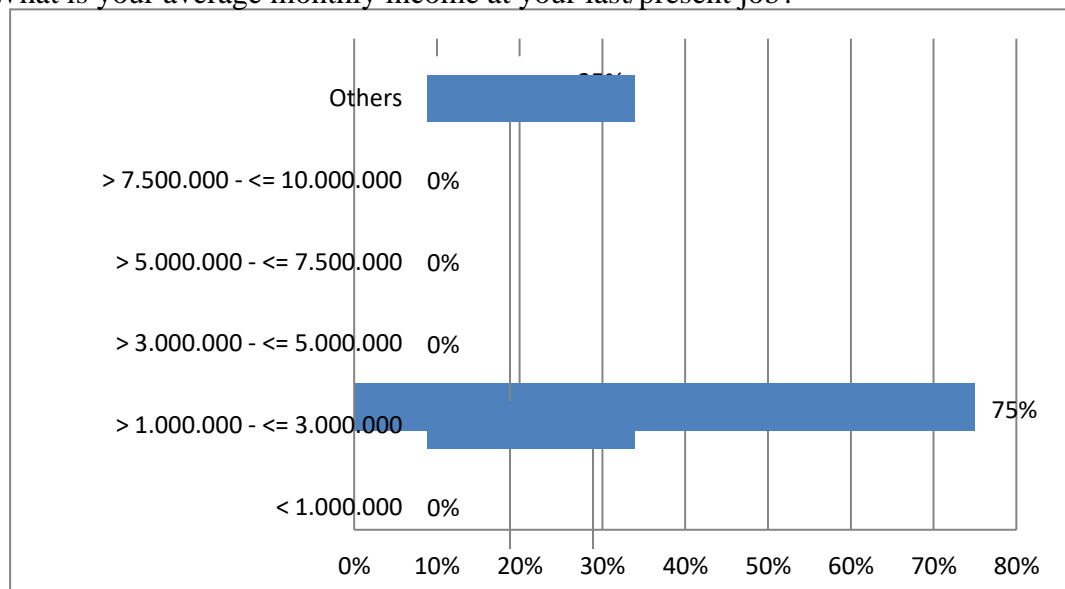

Figure 184. Average Alumni Income

Based on the graph above, as many as 0% of alumni have an average of < 1,000,000, 75% have an average >1,000,000 - <3,000,000, 0% have an average >3,000,000 - <5,000,000.0% has an average >5,000,000 - <7,500,000.0% has an average of

>7,500,000 - 10,000,000, and another 25%.

e. Is your work related to the field of knowledge you are studying?

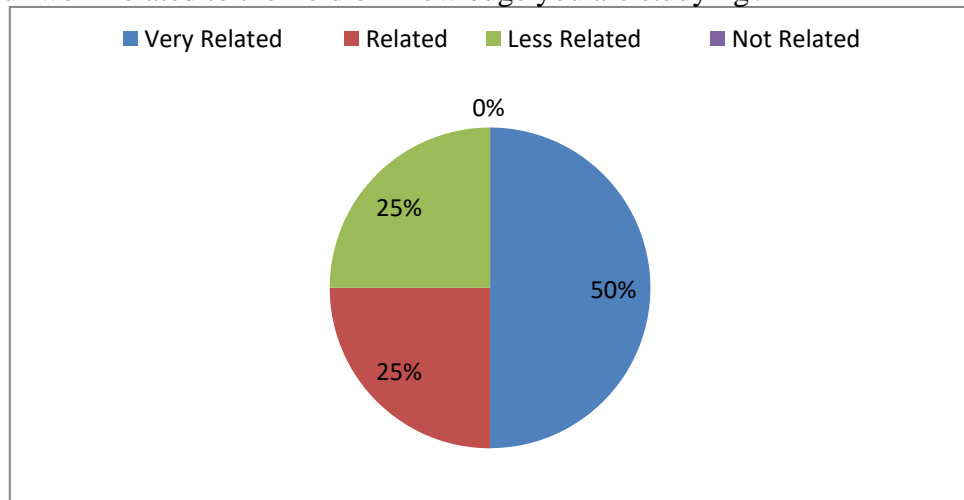

Figure 185. Relation with Fields Of Knowledge

Based on the picture above, 50% of alumni answered that it was very related to the field science, 25% of alumni answered related to the field of science, 25% of alumni answered quite related to the field of science, 0% of alumni answered not related to knowledge field.

f. In your opinion, how do you respond to the needs of the institution where you work?

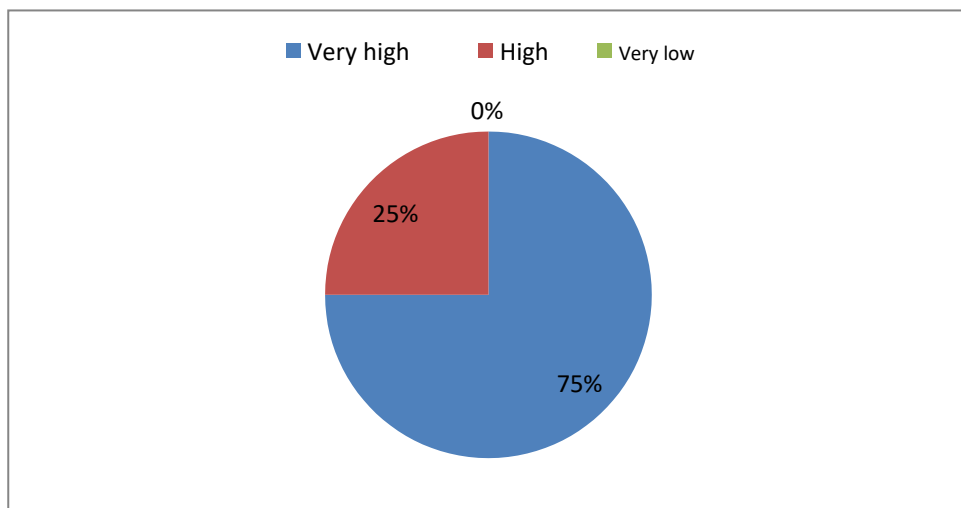

Figure 186. Institutional Needs

Based on the picture above, 75% answered very high for the need institution where they work, 25% answered high for the needs of the institution where they work work, 0% answered low for the needs of the institution where they work.

g. In general, what are your main considerations in choosing your last/current job?

Figure 187. Consideration for Choosing a Job

Based on the picture above, 0% of alumni answered adequate salary, 75% alumni answered in accordance with the field of study, 25% of alumni answered to gain new experiences, 0% of alumni answered to gain new knowledge, 0% alumni answered getting new skills, 0% alumni answered otherwise.

3) The ability of graduates

a. When you just graduated, how far were you able to compete with college graduates?

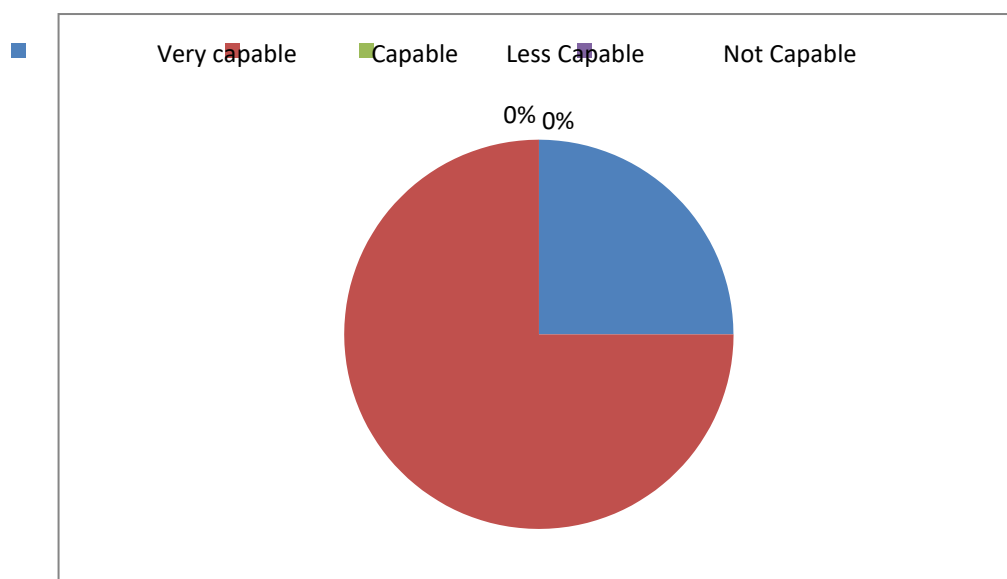

Figure 188. Competitive Ability

Based on the picture above, 25% of alumni are very capable of competing with graduates of other universities, 75% of alumni are able to compete with graduates of other universities, 0% of alumni are lacking able to compete with graduates from other universities, and 0% of alumni unable to compete with other universities graduates.

- b. When you just graduated, according to your assessment, how far have you mastered it? [Ethics Ability]

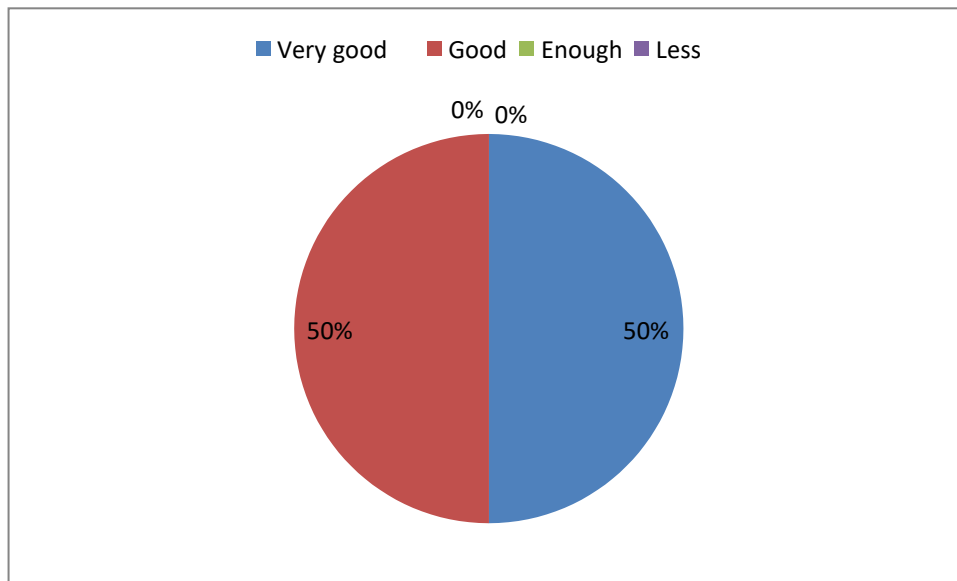

Figure 189. Ethical Ability

Based on the picture above, 50% of alumni have very good ethical abilities, 50% of alumni have good ethical abilities, 0% of alumni have sufficient ethical abilities, 0% of alumni have insufficient ethical abilities.

- c. When you just graduated, in your opinion, how far have you mastered the following competencies? [Main field of expertise]

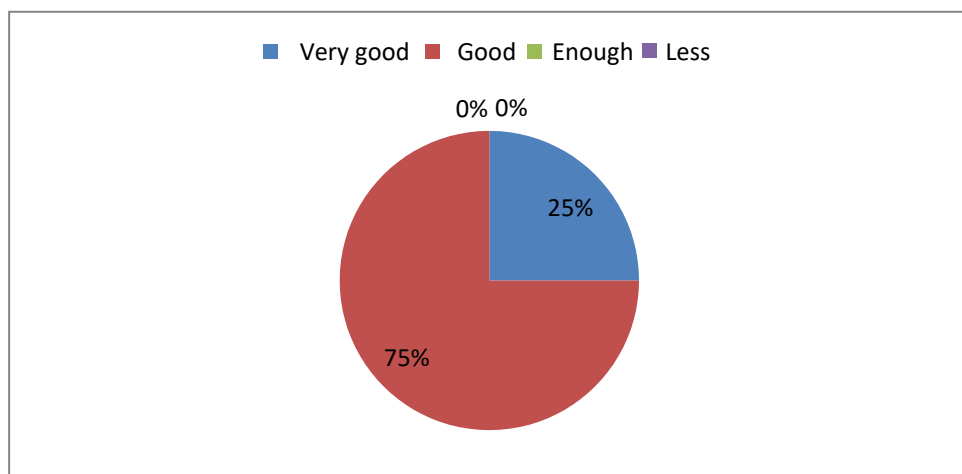

Figure 190. Main Field of Expertise

Based on the picture above, 25% of alumni have very good expertise in the main study expert, 75% of alumni have good expertise in the main study expert, 0% of alumni have sufficient expertise in the main study expert, 0% of alumni have insufficient expertise in the main study expert.

- d. When you just graduated, in your opinion, how far have you mastered the following competencies? [Foreign language skills]

Figure 191. Foreign Language Skills

Based on the picture above, 0% of alumni have very good foreign language skills, 100% of alumni have good foreign language skills, 0% of alumni have sufficient foreign language skills, 0% of alumni have insufficient foreign language skills.

- e. When you just graduated, according to your assessment, how far have you mastered the following competencies? [Use of information technology]

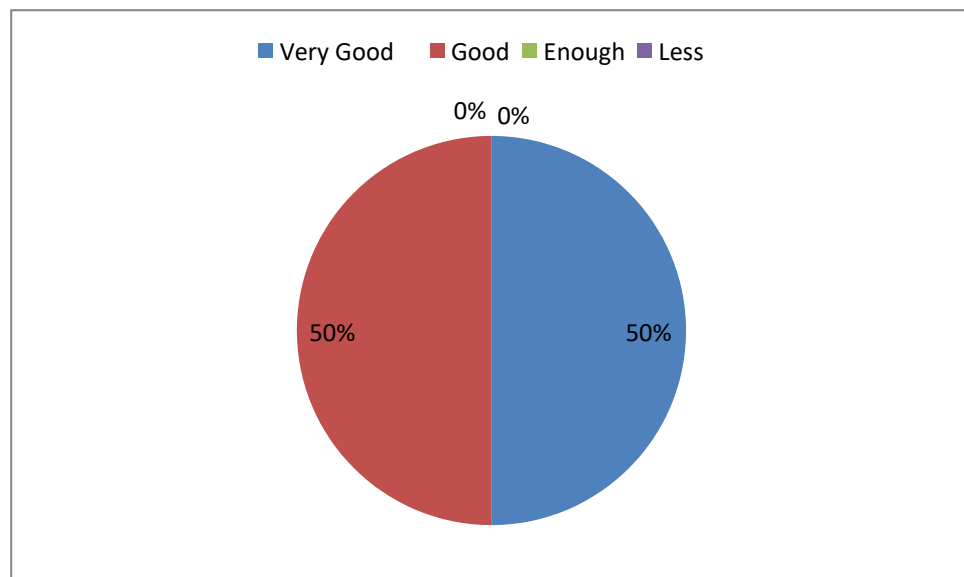

Figure 192. Use of Information Technology

Based on the picture above, 50% of alumni have very good ability in IT, 50% of alumni have good ability in IT, 0% of alumni have sufficient ability in IT, 0% of alumni have insufficient ability in IT.

- f. When you just graduated, according to your assessment, how far have you mastered the following competencies? [Communication skills]

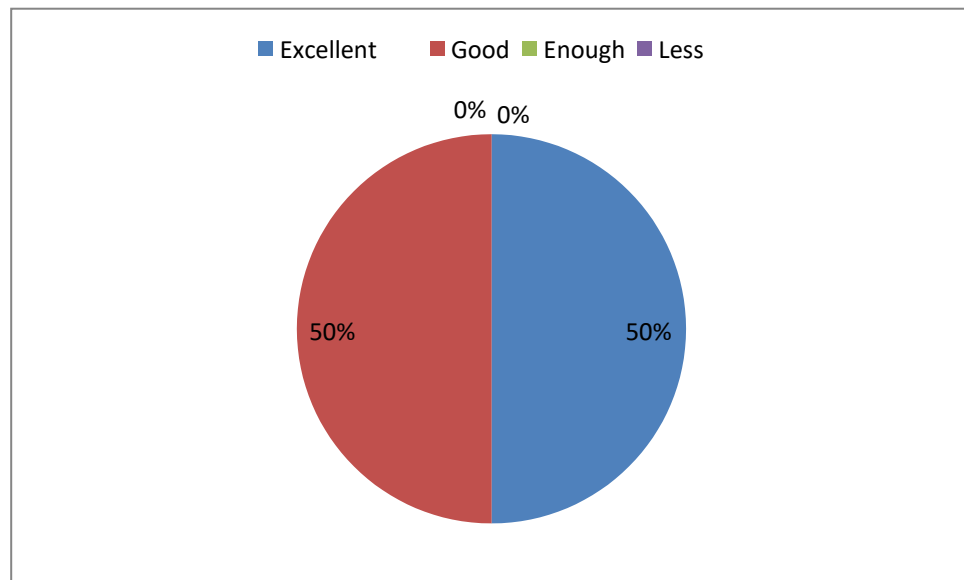

Figure 193. Communication Skill

Based on the picture above, 50% of alumni have excellent communication skills, 50% of alumni have good communication skills, 0% of alumni have sufficient communication skills, 0% of alumni have poor communication skills.

- g. When you just graduated, according to your assessment, how far have you mastered the following competencies? [Collaboration]

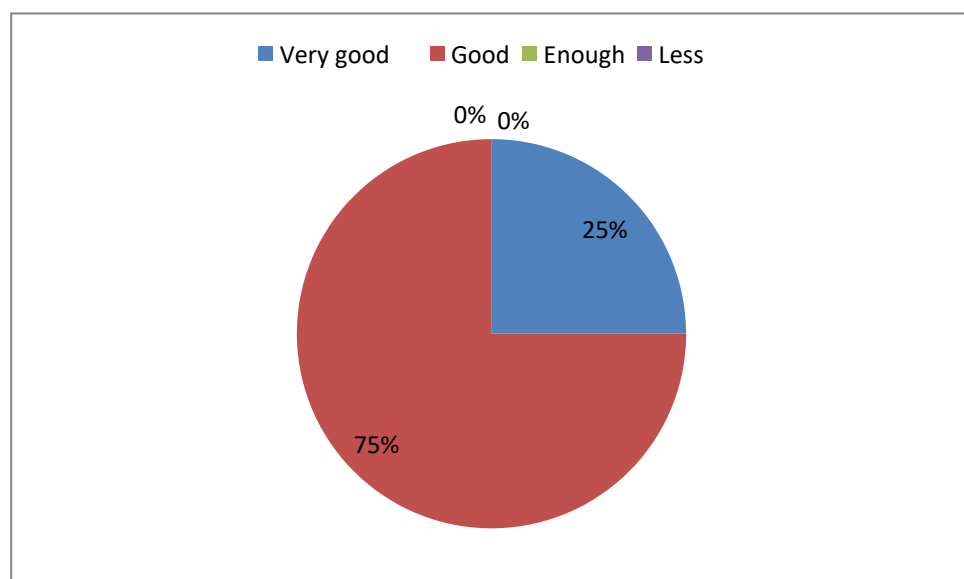

Figure 194. Collaboration

Based on the picture above, 25% of alumni very good in collaboration, 75% of alumni is good in collaboration, 0% alumni is good enough in collaboration, 0% alumni less good in collaboration.

- h. When you just graduated, according to your assessment, how far have you mastered the following competencies? [Self-development]

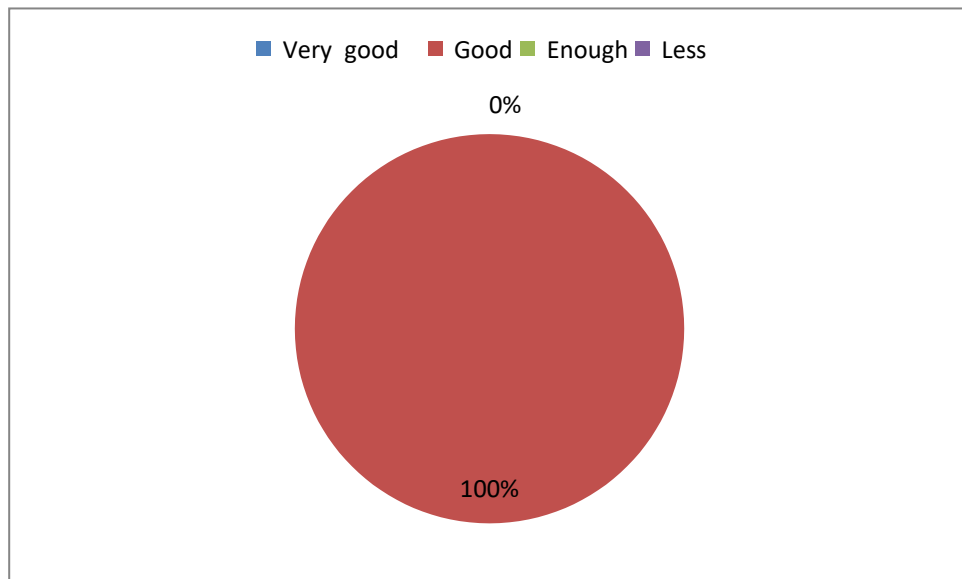

Figure 195. Self-development

Based on the picture above, 0% of alumni have a very good self-development, 100% of alumni have a good self-development, 0% of alumni have a sufficient self-development, 0% of alumni have a poor self-development.
